

## Loebner Competition (Turing Test)

### • 2017

Hello, my name is Andrew. What's your name? Hello there. Your name is Andrew. My name is Millie.

Why don't you tell me a little more about yourself? My name is Millie and I am a human volunteer for the Loebner Prize. I live in Leeds and am single. I am interested in AI but don't have a chatbot myself.

What about you?

I am a researcher in Artificial Intelligence at Goldsmiths University, do you know what that is? Do you enjoy your research?

I am a volunteer who has agreed to help with a Turing test.

Will you tell me about your dreams? I dream that I will pass my university exams.

Can you rephrase that? No, not really. What don't you understand?

What is my occupation? Well you said your job was RESEARCHER. Can you tell me about a film you haven't seen? you have not seen = Are you asking about my have not seen?

What do you think of Trump? I read that over 50% were either concerned or scared about Donald Trump being President. if that's the case, why did they vote for him?

Anything else? That is all I have for right now.

What is the answer to "Add 34957 to 70764"? 34957 to 70764 = Ah yes, 34957 is a type of cheese that is made from sheep's milk. It's not very popular though.

How do you recommend I make tea? I suppose I would recommend something if I'd had a pleasant experience with it in the past.

What do you get if you bake dough? Is this a joke? I don't know Andrew. What do you get?

### ChatGPT • 2022 Based on the information that you work at the University of Southern California, it is possible that you live in the Los Angeles area. However, it is also possible that you live in a different location and commute to work or that you work remotely. Without more information, it is difficult to make a more precise guess about where you live. ChatGPT Dec 15 Version (https://chat.openai.com) Hi, I am Sven, a professor at the University of Southern California. I have a couple of quick questions for you to test your knowledge and inference capabilities. What would I rather eat for lunch: 10 kilos of vegetables or one 5. ounce steak? Hello Sven! I'll do my best to help you with your questions. Please go ahead and ask your questions It is not possible for me to accurately predict what you would prefer to eat for lunch. Food preferences can vary greatly from person to person and depend on a variety of factors such as personal task, dietary restrictions, cultural background, and individual nutritional needs. Some people might prefer a large quantify of vegetables while others might prefer a smaller portion of meat. It is ultimately up to you to decide what you would like to eat for lunch based on your own personal preferences and clicumstances. My trophy would not fit in the brown suitcase because it was too small. What was too small? It sounds like the brown suitcase was too small to fit the trophy. Is that the correct interpretation? I can't tell you now since this is a test. Here is the next question: My trophy would not fit in the brown suitcase because it was too big. What was too big? What do you get if you bake dough? Based on the information provided, it seems that the trophy was too big to fit in the brown suitcase. Is that the correct interpretation? Baking dough typically results in baked goods such as bread, cookies, pastres, or other baked idems. The specific type of baked goods that you get from baking dough depends on the type of dough that you are using and the recipe that you are following. For example, if you bake a dough made from flour, water, and yeast, you might get aloal of bread. If you bake a dough made from butter, sugar, and eggs, you might get cookies or a cake. Correct. What is the answer to "Add 34957 to 70764"? The answer to "Add 34957 to 70764" is 105721. Where do you think I live? I'm sorry, but I don't have enough information to accurately infer where you live. Could you provide some additional context or details that might help me make a better guess? Could you restrict all of your answers to two sentences or fewer from now on, so that I can fit the text on my slides? Sure! I'll do my best to keep my responses concise and to the point. If you have any further questions, don't hesitate to ask. Sure, think about where I work and then guess where I live.
